Dear Hiring Manager,

I am writing to express my interest in the Data Scientist position at your organization. With a degree in Computer Science Engineering, professional experience in graphic design, and ongoing training in Data Science from Tops Technologies,Vadodara, I bring a combination of technical knowledge, creativity, analytical thinking, and problem-solving skills.

Through my computer science background and current Data Science training, I am developing my skills in Python, SQL, data analysis, and Artificial Intelligence and Machine Learning concepts. I am interested in exploring data, identifying meaningful patterns, and applying data-driven approaches to solve real-world problems and support informed business decisions.

My professional experience in graphic design has strengthened my creativity, attention to detail, visual communication, and ability to present information effectively. My experience with tools such as Adobe Photoshop, Illustrator, Premiere Pro, and After Effects has also helped me develop a strong visual perspective. I believe these transferable skills, combined with my growing technical expertise, can help me contribute to data-driven projects and communicate insights clearly.

I am a motivated and adaptable professional who values continuous learning and professional growth. I am eager to apply my technical knowledge, gain hands-on experience with real-world datasets, collaborate with cross-functional teams, and contribute to projects that create measurable value for an organization.

I would welcome the opportunity to discuss how my educational background, professional experience, and current technical training align with your organization's requirements. Thank you for your time and consideration. I am looking forward to the opportunity to contribute to your team.

Sincerely,

Kashika Sharma

Subject: Expression of Interest in a Data Scientist Position

Dear Hiring Manager,

I am writing to express my interest in a Data Scientist position at your organization. I hold a degree in Computer Science Engineering,professional experience in graphic design, and am currently undergoing training in Data Science from Tops Technologies,Vadodara.

My technical knowledge includes Python, SQL, and foundational concepts in Data Science, including data analysis, machine learning, and data visualization. I also possess a basic understanding of computer networking. I am eager to apply my knowledge to real-world projects, strengthen my technical competencies, and continuously expand my expertise while contributing to the growth and success of your organization.

My professional experience in graphic design has strengthened my creativity, attention to detail, and problem-solving abilities. I am adaptable, eager to learn, and committed to continuously enhancing my technical expertise.

I would appreciate the opportunity to discuss how my academic qualifications, professional experience, and foundational knowledge of Data Science can add value to your organization. Thank you for your time and consideration. I look forward to the possibility of contributing to your team, applying my skills to meaningful projects, and continuing to develop professionally while supporting the organization’s goals.

Sincerely,

Kashika Sharma
